

CONFIDENTIAL
THE COUNCIL FOR TOBACCO RESEARCH - U.S.

February 14, 1966

MEMORANDUM

TO: The committee comprising Dr. Jacobson, Chairman, Dr. Bing and Dr. Reimann.

FROM: Robert C. Hockett

SUBJECT: Application for a grant from Sue Buckingham, M.D. - #528.

We enclose herewith a grant application from Dr. Sue Buckingham of Columbia University. It is classified as a new grant since the last grant completed the three-year period originally requested. A report of progress is incorporated in the grant application.

The last grant was made without further commitment. The present application proposes a new three to five-year program.

This application is being sent at present only to members of the committee, but we plan to include it in the agenda for the March meeting.

R.C.H.

RCH:ek

Personal Opinion: This appears to be a good research program, and I would favor it as a systematic approach to the basic problem of surfactants and their relation to pulmonary disease.
